PERSONAL STATEMENT:

Driven and analytical software engineering student with a growing specialization in Python programming, Artificial Intelligence, and Machine Learning. Committed to developing practical solutions through continuous learning, hands-on projects, and disciplined problem-solving. Demonstrates initiative by applying technical knowledge across academic and real-world environments, including contributing to a construction project that strengthened teamwork, planning, adaptability, and execution. Recognized for a strong learning mindset, attention to detail, and the ability to quickly master new technologies. Eager to build AI-driven solutions while continuously expanding technical expertise and professional experience.

EXPERIENCE

PROJECT EXPERIENCE [TechWiz]

Team Lead & Software Developer – SupportNova (Generative AI Group Project)
2026

- Led a team of developers in building SupportNova, an AI-powered customer complaint management system.
- Coordinated team activities, delegated tasks, and monitored project progress.
- Contributed to the development and integration of application features.
- Collaborated with team members using Git and GitHub for version control and code management.
- Participated in developing complaint processing, categorization, and escalation functionalities.
- Supported team coordination, problem-solving, and project delivery.

SKILLS

1.Python

2.Artificial Intelligence

3.Machine Learning

4.Object-Oriented Programming

5.HTML & CSS

6.JavaScript

7.Responsive Web Development

8.User Interface / User Experience Design

EDUCATION

Advanced Diploma in Software Engineering (ADSE)

Aptech Computer Education, Nigeria - Advanced diploma

September 2024-November 2026

Ehizua Hub (Product Design)

August 2023-February 2024

Senior Secondary School Certificate (SSCE) [Sunglee High School], Nigeria.

2017-2023

First School Leaving Certificate (FSLC) [Saint Peter & Paul School], Nigeria

2008-2017

LANGUAGES

English, Pidgin.

PROJECTS

1. Conexa website, connecting artisans.

2. Support nova, generative ai-powered complaint management and resolution system. [group project]

3 . Music player application, use interface and navigation.

4. Lekki assembly hall renovation (action plan volunteer).

5. E-Commerce website (figma)

6. Food App design (figma)
